HIPAA Unraveled: Understanding the Health Insurance Portability and Accountability Act
This course has a target audience of dentists, dental hygienists, and all members of the dental team. The course is designed to educate all participants on the training requirements for HIPAA compliance in dental facilities. Topics include the Privacy Rule, Breach Notification Rule, Enforcement Rule, the HIPAA Omnibus Rule, and the HITECH Rule. In addition, attendees will learn about the need of content forms, authorization forms, business associate agreements, and the performance of a needs assessment/gap analysis for their facility.

The many links between oral disease and systemic disease
Risk factors and screening tools for systemic diseases
Shifting from foods to food
Finding healthy living behavior change in children and adults
Building infants, children, teen and geriatric systemic health programs
Networking with physicians for awareness and referrals
Reaching maintainability of the Total health dental practice in your community

Dentistry is striving to develop products that meet the evolving needs of every dental office. At times it may be challenging to keep up with the new and improved functionality. It’s easy to get stuck always doing your tasks the same way because, “we have always done it this way” — and sometimes it seems scary to try something new or update to the new version. However, because we are uncomfortable. These habits and habits that help us take away those feelings.

Julie Shaffer currently serves as Training Director for Compliance Training Partners, the leading company in the health care professions for training in the areas of OSHA, HIPAA, and infection control. Her experience encompasses all aspects of OSHA. She provides the expertise and guidance needed to achieve excellence in compliance and safety. Julie is a professional educator with extensive experience in adult education. She holds a bachelor’s degree (BS) in education from Michigan State University as well as a master’s degree (MA) in both Adult Education and Technology from Wayne State University.

Dr. Ed Suh
Dr. Ed Suh is a diplomate in prosthodontics, a certificate in biseler treatment and reconstruction. He received his prosthodontic training at the University of Oregon.

Kerry Straine
Kerry Straine has been a Certified Trainer for Dentrix Ascend and Easy Dental. She has trained 27-year training of all three practice management systems.
