

# So, this child didn't come with a manual? Don't worry!

**MAY 11th**

So, you want to know what it will take to assure your child will grow up to become a healthy and happy young adult in today's world?

Join us for a free seminar hosted by the author, Dr. Susan Maples. Dr. Maples, a dentist and passionate pediatric health educator, finally cracks the code on the most critical contemporary elements with evidence-based science.

**BRING YOUR KIDS**

Fun hands-on science learning labs for school-aged kids to experience while their parents and caregivers are learning. **For ages 5+ up. Space is limited, register today!**
